DIRECTORATE-GENERAL FOR ENERGY

Directorate C - Renewables, Research and Innovation, Energy Efficiency
C.2 - Innovation, clean technologies and competitiveness

Brussels
ENER.C.2/EF

Mr. Thiyagarajan,

(Fuel Economy Thiyagarajan)
No.54, 3rd Cross Street,
Thirumal Nagar,
Puducherry-605 013-INDIA

Dear Mr. Thiyagarajan,

Commission President Ursula von der Leyen thanks you for your e-mail and asked the unit for Innovation, clean technologies and competitiveness in the Directorate-General for Energy to reply. I would like to thank you for presenting your innovation in improving the efficiency of internal combustion engines.

The scope of European Union research and innovation programme is limited to within the EU, with the exception of cooperation with the governments of partner countries. Furthermore, in support of the European Green Deal, our research and innovation programme is directed towards transformational changes, such as technologies that replace fossil fuels and internal combustion engines.

I would recommend that you contact the relevant government office in your country, to consider possibilities for improving fuel efficiency in road vehicles and potential cooperation with other governments such as the European Union.

Yours faithfully,

Haitze Siemers
Head of Unit
